Configuring WebOS device for MASON-SECURE

Thanks to Brian Mancuso and Matt Szaro for this documentation

STEP 1:
In the top right hand corner of the home screen, tap the drop arrow in order to see the menu. Then tap on the “Wi-Fi Preferences” option.
STEP 2:
Select MASON-SECURE from the available wireless networks.
STEP 3:
Enter PatriotPass user name and password in the appropriate fields. Tap “Sign In” towards the middle of the screen.
STEP 4:
The screen should return to the Wi-Fi preferences and display a check mark to the right of MASON-SECURE. Make sure that the device is able to connect to the network before finishing up and returning to the home screen.
